APPRENTICESHIP & EMPLOYMENT CONDITIONS:

You should be aware that, in this construction trade, you must travel to various construction projects within numerous counties covered by this Joint Apprenticeship Committee's jurisdiction. You must have reliable transportation to travel to these projects.

A requirement of this apprentice program is attendance of at least 216 hours per year of related training, in addition to your normal working hours. You will be required to attend these related training classes without monetary compensation, even if those classes are held during a normal workday.

Employment in this trade may not be full time and there may be periods of unemployment due to weather, economic conditions and other circumstances.

Apprentices start at a percentage of journeymen rate and receive periodic increases. These increases are not automatic, but depend on the progress made by apprentice in on-the-job and related training.

*This occupation could involve the lifting of heavy objects, working in confined areas and working in high places, both on roofs and scaffolding.

When an offer of employment has been made, the applicant may be required to submit to a physical examination, which will include drug testing. Failure of the drug test will result in the withdrawal of the employment and apprenticeship offer and you may not re-apply for a period of one year.
